

Marble Maze Instructions

Materials

- Two pieces of material approximately 30cm by 30cm (bright colours are ideal)
- Matching cotton
- One marble

Instructions

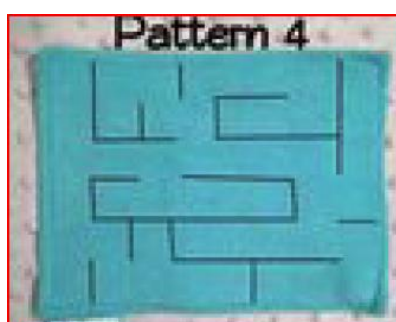

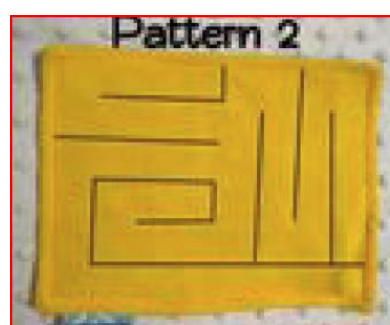

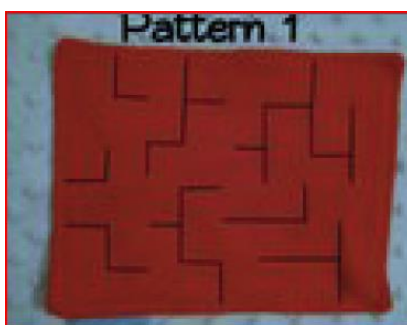

1. Cut the material to two pieces the same size – about 30cm by 30cm
2. With right sides together pin and then sew the two pieces leaving a 5cm gap along one side.
3. Turn the maze right side out by pulling the inside through the gap you left. Iron the material flat
4. Using pins, or a fabric pen that fades, mark out the maze pattern as the black lines on this pattern shows, with the paths 3cm wide.

5. Sew along the lines you have marked out ensuring you don't sew the end of each line so the marble can pass at the end of each line of sewing
6. Insert a marble into the open gap at the side then handsew the gap closed.

Variations

- Alter the size – for example use 30cm by 40cm material
- Alter the pattern – examples below or create your own (ensure there's room for the marble to move along the maze)

Back Ground

These mazes are a comfort for many children with learning challenges. They often put them in their pockets and take them to school to use if they are struggling to cope.

We also like to sell them on our Trade me page as a fund raiser for parents who know that a maze would be a huge help for their child.
